Bowser Notes

Trxade Health (MEDS) shares exploded higher on news of its new app for **MedChecks Health Passport**. The company has grown tremendously since our recommendation but this run up was barely related to the headline. The stock gained popularity on social media and surged on high volume after multiple trading groups started accumulating shares.

Retractable Technologies (RVP) and **Deswell Industries (DSWL)** also gained on positive headlines. RVP has had plenty of momentum lately following contract extensions and announced that it will be repurchasing shares and paying the expected dividends. DSWL clearly surprised investors with fantastic quarterly results, reporting unusually high sales growth. The stock jumped to a new 52-week high and has doubled from our recommendation.
